DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 21-29 and 51-71, drawn to a sequencer and kernel, classified in class 359, subclass 237.
- II. Claim 9-20 and 30-50, drawn to a projection TV, classified in class 348, subclass 743.

*note: There are numerous errors such as incorrect preamble in the claims. For example, claim 32 refers to "the television according to claim 1", however claim 1 does not disclose a television. Appropriate correction is required.

The inventions are distinct, each from the other because of the following reasons:

Inventions related to class 359 and 348 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, claims regarding class 359 is for specific optical elements and claims regarding class 348 is directed to a television system.
